### **ALLOWANCE**

1. Regarding the previously stated 35 USC 112 rejections, Applicant's amendment, submitted 9/20/05, has resolved the issues.

Applicant further noted that the previous Office Action Summary incorrectly indicated that claims 33 and 34 were allowed. As evidenced by the body of the Office Action, the claims were not allowable as drafted. The claims were rejected under 35 USC 112, second paragraph, and 35 USC 102(b) as being anticipated by Jennus.

### ***Response to Arguments***

2. The 35 USC 102(b) rejection in view of Jennus is overcome by Applicant's persuasive comments. On page 9 of Applicant's response, Applicant points out that it is the shingle composite of the prior art, not the individual glass mats, that have a varying amount of material. The individual glass mats of the prior art do not possess the structure of claim 12, or of the glass mat of claim 33, wherein the edge margin of the mat is generally uniform across the entire width but has a lower glass substance weight/unit area than the remainder of the mat.

### **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Art Unit: 1771

Authorization for this examiner's amendment was given in a telephone interview with Paul Lewis on November 23, 2005. The application has been amended as follows:

IN THE CLAIMS:

Cancel claim 32.

Rejoin claims 30 and 31.

**REASONS FOR ALLOWANCE**

4. The following is an examiner's statement of reasons for allowance: Glass mats of the prior art may be assembled into composites having cross-directionally varying glass substance weight/unit area. Prior art glass mats may also have varying cross-directional thicknesses. However, the prior art is not seen to teach or fairly suggest a cross-directionally variable glass substance weight/ unit area, and edges portions having a uniform, but lower, glass substance weight/unit area than the main body of the mat.

Claims 30 and 31 are directed to an allowable product. Claims 30 and 31, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claim 32, not directed to a product with the patentable features of the allowed claims, will not be rejoined.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

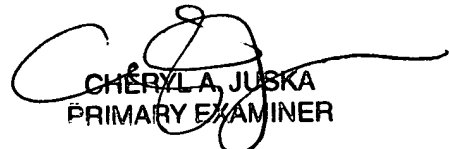

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arden B. Sperty whose telephone number is (571)272-1543. The examiner can normally be reached on M-Th, 08:00-16:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on (571)272-1478. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
